

Exploring the Challenges of Food Security in Global Communities: A Research Simulation

Project Choice Board

Directions: With your group, choose one of the options below. You will be graded using the rubric below the choice board. Each option should include the same amount of information, research, creativity, and collaboration. But what you choose to do is up to you.

<p><u>Canva Poster/ Poster</u></p> <p>Create a canva poster that discusses your food crisis, the related SDG's, and the food chain that would best support the crisis.</p> <p>See Examples here or here.</p> <p>Create your own using this link.</p>	<p><u>Infographic</u></p> <p>Create an infographic that discusses your food crisis, the related SDG's, and the food chain that would best support the crisis.</p> <p>See Examples here.</p> <p>Create your own on poster board.</p>	<p><u>Brochure</u></p> <p>Create a brochure that discusses your food crisis, the related SDG's, and the food chain that would best support the crisis.</p> <p>See Examples here.</p> <p>Create your own on poster board.</p>
<p><u>Google Slide Presentation</u></p> <p>Create a presentation that discusses your food crisis, the related SDG's, and the food chain that would best support the crisis.</p> <p>See Examples here.</p> <p>Create your own using this link.</p>	<p><u>Prezi</u></p> <p>Create a Prezi that discusses your food crisis, the related SDG's, and the food chain that would best support the crisis.</p> <p>See Examples here.</p> <p>Create your own using this link.</p>	<p><u>Flipgrid PSA</u></p> <p>Create a Flipgrid presentation that discusses your food crisis, the related SDG's, and the food chain that would best support the crisis.</p> <p>See Examples here.</p> <p>Create your own using this link.</p>

Rubric:

<i>Visuals</i>					
<i>Project includes visuals</i>					
	Exceeds Standard	Meets Standard	Approaches Standard	Below Standard	Incomplete
	Project includes visuals that demonstrate synthesis of ideas and research.	Project includes creative and relevant visuals that add to the overall message	Project includes visuals. However, the visuals may not relate or show creativity and effort.	Projects include some color or visuals, but they don't relate AND do not show creativity or effort.	Project does not include visuals.
<i>Research</i>					
	Exceeds Standard	Meets Standard	Approaches Standard	Below Standard	Incomplete
	The presentation presents ample and well selected evidence from both the novel and research materials	Project is clearly based on research from the novel and the outside sources provided.	Project is clearly based on research from either the novel or the outside sources provided.	Project is clearly based in research, but it is not clear what research or does not clearly connect.	Project is NOT clearly based on research.
<i>SDG Connection</i>					
	Exceeds Standard	Meets Standard	Approaches Standard	Below Standard	Incomplete
	The presentation demonstrates both breadth and depth of the problem and presents evidence of solutions within their global community.	The group connected the crisis to one of the Sustainable Development goals and explained clearly how it connects.	The group connected the crisis to a sustainable development goal, but the explanation does not apply or does not make sense with the crisis.	The group makes global connections, but does not mention SDG's and their connection to the crisis.	The group makes no global connection.

Claims					
		Meets Standard	Approaches Standard	Below Standard	Incomplete
		Project includes an independent claim made by the group expressing which food chain would be best suited to the situation they researched. Group should also include 3 supporting claims	Project includes an independent claim made by the group expressing which food chain would be best suited to the situation they researched. The group provides 2 or less supporting claims/ reasons.	Project includes an independent claim made by the group expressing which food chain would be best suited to the situation they researched. The group does not provide supporting claims.	Project DOES NOT include an independent claim made by the group expressing which food chain would be best suited to the situation they researched.
Evidence					
		Meets Standard	Approaches Standard	Below Standard	Incomplete
		Project includes citations from the outside source and from <i>The Omnivore's Dilemma</i> that are properly cited and attributed to the sources.	Project includes citations from the outside source and from <i>The Omnivore's Dilemma</i> that are NOT properly cited and attributed to the sources.	Project includes citations from the outside source and from <i>The Omnivore's Dilemma</i> that are NOT cited and attributed to the sources at all.	Project does not include citations from the outside source and from <i>The Omnivore's Dilemma</i> .
Editing					
		Meets Standard	Approaches Standard	Below Standard	Incomplete
		Project has been edited and contains no grammatical errors in the	Project has been edited and contains few grammatical	Project has been edited somewhat, but contains many grammatical	Project has NOT been edited.

		writing and annotations.	errors in the writing and annotations.	errors in the writing and annotations.
